ARC.STAT3.subset._+_−.clusters
regulation of synapse organization
regulation of synapse structure or activity
dendritic spine development
regulation of postsynapse organization
regulation of synapse assembly
response to salt
regulation of endopeptidase activity
cellular response to salt
negative regulation of fibrinolysis
negative regulation of cell adhesion mediated by integrin
import into nucleus
sensory perception of sound
sensory perception of mechanical stimulus
nucleocytoplasmic transport
nuclear transport
positive regulation of Rac protein signal transduction
negative thymic T cell selection
negative T cell selection
immunological synapse formation
positive thymic T cell selection
neurofilament cytoskeleton organization
chondroitin sulfate biosynthetic process
negative regulation of axon regeneration
negative regulation of neuron projection
chondroitin sulfate proteoglycan biosynthetic process
negative regulation of developmental growth
regulation of cell shape
axon guidance
neuron projection guidance
negative regulation of growth
